10.09.2014 Dana doubles its warehouse capacities in Zaragoza, Spain

The challenges in the automotive aftermarket business are clear: maximum availability of parts and shortest possible delivery times – top quality and perfect service included. In order to fulfill these customer demands as best as possible, Dana has doubled the storage area of its warehouse at its Zaragoza site from 2,500 m^2 to 5,000 m^2. This increased the number of available storage spaces from 17,000 to 25,000.

“Thanks to this investment, we are well prepared to meet the markets’ requirements,” declares sales manager Javier Matesanz. “In Spain, we are now able to deliver every available replacement part to its destination within 12 hours.”

From Zaragoza, Dana supplies customers in 85 countries with cylinder head gaskets and bolts, as well as sealing systems for passenger, utility, and off-highway vehicles. Roughly 2,000 orders with Glaser® brand products leave the new aftermarket warehouse each day. Dana’s staff in Zaragoza is more than 250 strong. The company has another distribution warehouse in Seville.

Zaragoza is the capital of the Spanish autonomous community of Aragonia and the province of Zaragoza. The automotive and parts supply industry is one of the most important economic sectors in this region rich in history. Acquired by Dana in 1995, the company was initially founded in 1951 at its current location in Zaragoza.

Overview of the customer benefits which the new Dana warehouse in Zaragoza offers:

5,000 m^2 of warehouse holding 25,000 storage spaces

A wider range of aftermarket replacement parts

Greater part availability and shorter delivery times

Higher level of service

About Dana in the Aftermarket

Dana, a leading supplier of drive trains, sealing systems and thermal management products worldwide, also presents a broad spectrum of high-performance and efficient solutions. The product range of successful brands Dana®, Spicer®, Victor Reinz®, Glaser®, GWB®, Thompson®, TruCool®, SVL® and Transejes® delivers replacement parts of superior quality worldwide. The lineup comprises aftermarket products from original and third-party manufacturers for the maintenance and repair of passenger cars as well as utility and off-road vehicles.

The Dana aftermarket team operates out of 13 distribution centers all over the world and is there to provide personal customer assistance and technical support. Extensive inventories in stock guarantee high product availability with quick delivery times.
